Terms and Conditions

Rebate Availability The Enbridge Gas® ThermWise® rebate programs have been approved by the Public Service Commission of Wyoming. All rebates subject to change with 30 days notice. All equipment/supplies (measure) must be new and purchased and installed prior to submitting a rebate application. Measures must have been purchased and installed on or after January 1, 2025. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate.

Rebate Eligibility It is the responsibility of the applicant to send the completed rebate application along with copies of the required proofs of purchase (receipt, invoice, etc.). Only one rebate will be paid per installation. Proof of purchase and installation receipts are required for each measure qualifying for a rebate. Allow approximately eight weeks from receipt of completed applications, including all purchase receipts, for rebate processing. Completed form and all required documentation must be received within six months of purchase/installation.

Rebate Qualification If a measure is returned after rebate is paid, Enbridge Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying rebate measures may be found online at ThermWise.com. Measures must be installed within the Enbridge Gas Wyoming service area. Customers in Enbridge Gas's Wyoming service area may be eligible for Wyoming specific measure rebates. VisitThermWise.com for details regarding the WyomingThermWise Program.

Application Details All applications are subject to verification by Enbridge Gas. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed. Enbridge Gas issues rebates in the form of checks, not utility bill credits. Enbridge Gas is not responsible if your retailer or contractor provides inaccurate information about the amount and/or conditions of the actual rebate and Enbridge Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Customers receiving rebates under one ThermWise program may not receive rebates for the same equipment under any other ThermWise program.

The customer hereby transfers to Enbridge Gas all "Environmental Attributes" attributable to the qualifying measure or its operation. Environmental Attributes means those aspects, claims, characteristics and benefits of avoided energy use associated with the measure. Environmental Attributes include all environmental benefits, avoided emission characteristics, credits, allowances, reductions, offsets, and benefits associated with the savings of energy and the reduction of generation from non-renewable energy resources, including any avoided emissions of carbon dioxide, methane, and any other greenhouse gases, but do not include any tax benefits or tax credits associated with the measure.

Rebate Limitations and Limitation of Damages Payment of the rebate by Enbridge Gas does not warrant the performance of qualifying/installed measures and does not warrant that the qualifying/installed measure will deliver any specified amount of energy or cost savings. The customer shall independently evaluate any information related to the qualifying measure. Neither Enbridge Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Enbridge Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.

Consent to Share Information By submitting this ThermWise application, I authorize Enbridge Gas Company and its agents to release the information I have included in the application to my electric service provider or another program administrator for the purposes of energy efficiency program administration and project quality assurance purposes. I understand and agree that this information may be used to help determine eligibility for available Enbridge Gas Company rebates. I authorize my electric service provider or another program administrator to provide Enbridge Gas Company with information provided to me on any incentive application I may have submitted. I understand and agree that references to Enbridge Gas, electric service provider and other program administrators also includes their authorized agents and program administrators.

Tax Liability Applicant acknowledges that receipt of any rebate or payment pursuant to this application may result in taxable income to the Applicant, even if Applicant does not directly receive a payment. Applicant is solely responsible for payment and reporting with respect to Applicant's taxes. Applicant should consult his or her own tax advisor with respect to the tax treatment of rebates provided pursuant to application. Nothing in this application or these Terms and Conditions is intended to constitute tax advice and cannot be used for the purpose of avoiding penalties under the Internal Revenue Code.

Rebates are paid by check in US dollars. Checks will be mailed to qualifying customers within eight weeks upon completion of application processing. It is required that you cash the rebate check within 90 days of the issuance date on the check. Excessive submissions constitute fraud and may result in federal prosecution under the U.S. mail fraud statutes (Title 18, USC 1341 and 1342). All submitted materials become property of Enbridge Gas and will NOT be returned.

2025 ThermWise® - Wyoming Commercial Smart Thermostat Supplement

Total Rebate

Promotion Dates: 01/01/2025 - 12/31/2025

• Used, rebuilt or leased equipment is not eligible.

☐ Thermostat must control gas heating equipment.

- In order to facilitate timely processing, please submit rebate application within 6 months of the installation date.
- If you are installing more measures than what is available on this page, please use our multiple measure spreadsheet found here: www.thermwise.com/wp-content/uploads/multiple-measures-spreadsheet.xlsx
- Send by email to incentives@thermwise.net, or by mail to ThermWise Business Rebates. 2223 South Highland Drive #E6-333, Salt Lake City, UT 84106.

☐ Thermostat must have remote programming capability (can be controlled through online portal or centralized access point).

Eligibility Requirements

☐ Retrofit only.

☐ Thermostat must be setback by a minimum of 5°F when the space is unoccupied (Energy Star Recommends heating set at 70°F while occupied and 62°F when unoccupied).
